(Previous date of listing: 29.01.2025).

Matter was listed today in terms of last Order dated 29.01.2025 passed by Forum allowing there in Respondent No.2 to understand/analyse the reasons for occurrence of phase reversal in meter as a result of which the dispute has arisen.

Today Respondent has submitted more MRI data which is taken on record. This MRI data suggests that there is phase reversal. However, Respondent expresses its helplessness to give the underlying reasons for the phase reversal which it also cannot ascertain from the MRI data and the field conditions.

Parties pray to conclude the matter.

Accordingly matter has been argued at length by both parties today.

Order is reserved.

Order to come up for pronouncement on 28.03.2025.
