No. HPSEBL/CE(Comm.)/SERC-26/2025-26- 13066-73 Dated: 20/03/2026

To

The Chief Engineer (SO),
HPSEBL, Vidyut Bhawan,
Shimla-04

The Chief Account Officer,
HPSEBL, Vidyut Bhawan,
Shimla-04

Sub: Fixing the rate of sale of Free Power of the Government of Himachal Pradesh to HPSEBL for FY2026-27.

Sir,

Enclosed please find herewith a copy of order issued by the Commission in Suo Moto Petition No. 03/2026 on dated 17.03.2026 vide which the price of GoHP Free Power for FY 2026-27 has been determined at **Rs. 2.73 per unit** for purchase by HPSEBL.

In this regard, it is requested to go through the content of order issued by the Commission and take appropriate action accordingly please.

DA: As above.

Yours faithfully,

(Anup Ram)
Chief Engineer (Comm.),
HPSEB Ltd, Vidyut Bhawan,
Shimla-171004.

Copy to

- ✓ 1. The Superintending Engineer (IT), HPSEBL is requested to upload the order on the website of HPSEBL please.
2. Sr. PS to the Chairman, HPSEBL for kind information of worthy Chairman please.
3. Sr. PS to the Managing Director, HPSEBL for kind information of the MD please.
4. Sr. PS to the Director(Finance/Op./Tech.), HPSEBL for kind information of the concerned director please.

Chief Engineer (Comm.),
HPSEB Ltd, Vidyut Bhawan,
Shimla-171004.

HIMACHAL PRADESH ELECTRICITY REGULATORY COMMISSION
Vidyut Aayog Bhawan, Block No, 37, SDA Complex, Kasumpti, Shimla-
171009, Himachal Pradesh

Suo Moto Petition No. 03/2026
Decided on 17.03.2026

In the matter of: Fixing the rate of sale of Free Power of the Government of Himachal Pradesh to Himachal Pradesh State Electricity Board Limited (HPSEBL) for FY 2026-27.

Coram:

Sh. Yashwant Singh Chogal
Member (Law)-cum-Chairman

Sh. Shashi Kant Joshi
Member

Order

Background

- 1.1 The Government of Himachal Pradesh (hereinafter referred to as “GoHP” or “State Government”) has Free Power entitlement in various generating stations of NTPC, NHPC, SJVNL, PSEB, HPSEBL and IPPs in lieu of project site being used by these generating stations. The detail of free power entitlements from these generating stations is given in Table 1 below:-

Table 1: Free Power Entitlement of GoHP

Generating Station	Free Power Share
Koldam	12%
Bairasuil	12%
Chamera I	12%
Chamera II	12%
Chamera III	12%
Parbati III	12%
Rampur	12%
Nathpa Jhakri	12%

- 1.2 The entire Free Power share of the State Government was available to HPSEBL before FY05 at a rate equal to the tariff rate of the lowest slab for domestic consumers i.e. 70 paise per unit.
- 1.3 During FY06, the Free Power was made available by Govt. of H.P. to HPSEBL during the winter months only (November to March) and at a rate equal to the average cost of power purchase of HPSEBL from various sources, which was Rs 1.93 per unit.
- 1.4 Presently the rate of Free Power of Govt. of Himachal Pradesh is being decided by HPERC in accordance with the power conferred under section 86 (1) (b) of the Electricity Act, 2003 and the Electricity [Removal of Difficulty] (Third) Order, 2005 issued by Ministry of Power, Govt. of India which came in to force on June 8, 2005.
- 1.5 From 2007 till 2011, the Commission switched over to the concept of marginal cost of power from Central Sector Generating Stations. On the basis of this new approach the Commission fixed the price of Free Power to be purchased by HPSEBL at Rs. 2.35, Rs. 3.04, Rs. 3.04, Rs. 2.87 and Rs. 3.19 per unit in 2007, 2008, 2009, 2010 and 2011 respectively.
- 1.6 In FY12, the Commission revised its methodology for determination of Free Power rate and determined the Free Power rate by taking into consideration the average cost of power purchased by HPSEBL from all sources (except banking) and the ex-bus bar rate of energy of the stations from which HPSEBL has GoHP Free Power availability. The notional cost of Free Power was determined by considering the maximum of average power purchase rate in FY11 and the ex-bus rate of the respective station in FY11, and then multiplying the higher of the two by the quantum of Free Power received from the respective station. The average rate of Free Power was thus determined as Rs 2.96 per unit for FY12.
- 1.7 The Commission continued with the same methodology for determination of Free Power rate for FY13 & FY14 and fixed the rate of Free Power at Rs 2.90 and Rs. 2.92 per unit respectively.
- 1.8 The Commission while determining the Free Power rate for FY15 decided that it will continue with this methodology for determining the rate of free power during the Third MYT Control Period from FY15 to FY19 because this approach allows best possible rate of power to the State Govt. and simultaneously ensures assured power on consistent, realistic and visible rates to HPSEBL. Accordingly, the Commission decided that the cost of free power

of GoHP for the n^{th} year shall be decided by considering the maximum of the average power purchase rate of HPSEBL as estimated by the Commission for the $(n-1)^{\text{th}}$ year and the ex-bus rate of the respective station as determined by CERC/ HPERC for $(n-1)^{\text{th}}$ year and multiplying the same with the quantum of free power projected by HPSEBL to be received from the respective station during the n^{th} year. The average cost of power thus derived shall be the rate of GoHP free power to be purchased by HPSEBL during n^{th} year.

- 1.9 The Commission continued with the above methodology for determination of Free Power rate for FY15, FY16, FY17, FY18 & FY19 and fixed the rate of Free Power at Rs. 2.87, Rs. 2.80, Rs. 2.92, Rs. 2.63 and Rs. 2.48 per unit respectively.

Determination of the rate of Free Power for the Fourth MYT Control Period (FY20 to FY24)

- 1.10 The Commission while determining the Free Power rate for FY20 decided that it will continue with this methodology for determining the rate of free power during the fourth MYT Control Period from FY20 to FY24 with slight changes as explained hereinafter. The Commission decided that the cost of free power of GoHP for the n^{th} year shall be decided by considering the maximum of the average power purchase rate of HPSEBL as estimated by the Commission for the $(n-1)^{\text{th}}$ year and the ex-bus rate of the respective station as determined by CERC/ HPERC/ Other State Commissions for $(n-1)^{\text{th}}$ year and multiplying the same with the estimated quantum of free power received by HPSEBL from the respective station during the $(n-1)^{\text{th}}$ year. In case ex-bus rate of a generating station for $(n-1)^{\text{th}}$ year is not available then the same shall be taken as Average Power Procurement Cost (APPC) rate of HPSEBL as determined by the Commission for $(n-1)^{\text{th}}$ year or Power Purchase Agreement (PPA) rate, if available. Thus, the weighted average cost of power derived shall be the rate of GoHP free power to be purchased by HPSEBL during n^{th} year. Accordingly, free power rates determined by the Commission for FY20, FY21, FY22, FY23 & FY24 were Rs. 2.56, Rs. 2.50, Rs. 2.49, Rs. 2.49 & Rs. 2.57 per unit respectively.

Determination of the rate of Free Power for the Fifth MYT Control Period (FY25 to FY29)

- 1.11 The Commission while determining the free power rate for the first and second years i.e. FY25 and FY26 of the fifth MYT control period FY25 to FY29 has followed the same methodology for free power rate determination as was for

the fourth control period. Accordingly, the rate determined in this way was Rs. 2.60/- per unit for FY25 and Rs. 2.70/- for FY26. Now for FY27 as well, the free power rate has been determined on the same methodology as follows:

- 1.12 HPSEBL in its tariff petition has proposed that it will be utilizing the GoHP free power only from those hydro generating stations which are connected to its system. It has been conveyed by HPSEBL that the free power from the other stations has not been made available to them by the GoHP. The Commission is of the firm view that the HPSEBL should have first right on the GoHP free power. Moreover, the cost of free power is already paid for by the Consumers of the State as the tariff calculation by the Commission to a hydro generator is after excluding the free power component so that the generator is not adversely affected. The Commission fails to understand as to why the Consumers of the State are being debarred from this power inspite of the fact that they are paying for it twice. The Commission believes that the GoHP may review its decision and allocate the maximum quantum of GoHP free power to the HPSEBL as per their requirement.
- 1.13 HPSEBL has supplied the details of actual GoHP Free Power availed by it from various stations for the first six months of FY26. The Commission has accordingly estimated the station wise free power availed by HPSEBL for complete FY26.
- 1.14 For own generating stations of HPSEBL, the ex-bus rates as decided by the Commission have been considered.
- 1.15 The ex-bus rates of Ranjeet Sagar Dam and Shanan have been considered the same as determined by PSERC in its tariff order for FY2025-26 dated 28th March, 2025.
- 1.16 For private small hydro electric plants the ex-bus rates, wherever available, equivalent to their PPA rates as approved by the Govt. of H.P. / Commission have been considered.
- 1.17 In the absence of any specific tariff for small HEPs, the Commission has considered the ex-bus rate as Rs. 2.72 per unit equal to HPSEBL's average pooled power purchase cost (APPC) for FY26 determined by the Commission in Tariff Order dated 28.03.2025.
- 1.18 The notional cost of Free Power to be received by HPSEBL in FY27 has been determined by considering the maximum of average power purchase rate of Rs 2.66 per unit for FY26 as estimated by the Commission and the ex-bus rate of

the respective station or APPC or PPA rates as discussed above, and multiplying the higher of the two by the estimated quantum of Free Power available to HPSEBL from the respective station in FY26.

Therefore, as per the principle/ methodology, the rate of Free Power for FY27 is arrived at Rs 2.73 per unit, as shown in the following Table 2 :-

Table 2: GoHP Free Power Rate for FY 27

Generating Station	FY26 Free Power estimated Availability to HPSEBL (MU)	FY26 Average Power Purchase Cost estimated by Commission (Rupee/unit)	FY26 Ex- Bus Rate of the Station (Rupee/unit)	Free Power Cost (Max of Avg Purchase Cost & Ex Bus Rate) (Rs Cr) $D = A * \text{Max}(B \text{ or } C) / 10$
